How Does Revolution
"Smack"?
Not "Bound for Hades"
The Gorilla Adversement
By Arthur Brisbane
Copyright, 1921

A train ran from New York to Philadelphia yesterday in eighty minutes, to oblige Mr. Stokes, banker, who paid \$427 for speed. Within twenty-two years passengers will fly from Philadelphia to New York in less than eight minutes, and not more than eighty cents, ten cents a minute. Keep in mind if you gamble in railroad stocks.

Railroads are lame enough now, foolish private owners having taken them back from the government. They will be lame yet when the flying machine comes into its own. In that day the passenger train will be like an ancient hansom cab competing with a taxi.

Nothing is more important to every citizen than the Supreme Court. Law is law only when that court says yes—barring civil war or other cataclysm. Ordinarily the Supreme Court has a liberal minority made up of Justices Holmes and Brandeis, thinking as the average little American thinks, and a big conservative majority. Occasionally some of the conservative majority join the minority in a liberal decision, when public opinion is strong.

Such a case is the Supreme Court decision supporting New York's law against extortionate landlords. Five upheld the law, four voted against it, the law stands. The people's courts have a right to control landlords.

Justice McKenna, in the dissenting opinion, suggested "that the principle of interference with contract smacked of socialism."

The justice will admit that too many people without a roof over their heads, too many put out on the sidewalks by extortionate landlords, would "smack" of revolution, and revolution "smacks" of something a good deal worse than socialism.

The very prosperous men of this country need more than anything else, courts and officials that will not give them TOO MUCH. Nothing is more dangerous than too much for those that already have enough. Nothing more dangerous than too much bullying of those that have nothing.

Poor, worried Mrs. Cameron writes a letter of apology to her husband, regretting bad conduct, saying, "I am bound for the deepest depths of hell," then kills herself.

Fortunately, we know that the young woman was mistaken. Divine power that created Earth and Betelgeuse, on which this earth would be about as big as a potato, does not sentence unfortunate creatures to eternal fire for the mistake of a moment, or a year.

But divine WISDOM is shown in the fact that we suffer here for our sins and crimes, as did that unfortunate woman driven to death by self-condemnation. And weak, superstitious minds, attributing to divine Providence a brutality that would shame an Apache, frighten themselves into good behavior by the self-inflicted monster that their imaginations create.

John Daniel, gorilla in the Ringling Brothers' circus, is dead. Had he died in the jungle ants would have eaten him. Here scientists will dissect him, taxidermists will stuff and mount him, chemists will preserve him, the great natural history museum will exhibit him.

You will be told that his brain is like that of a man in structure and in operation. For every lobe in the human skeleton John Daniel, the gorilla's skeleton, will show a bone almost exactly similar. Some will say that this proves man descended from the monkey. But it does not. Man grew up alongside the monkey and passed the monkey. He is considered like the monkey, because both had to fight the law of gravitation.

Your car was once the gill of a fish, letting out the water. Your five-fingered hand was the fin of a fish, letting out the water. Millions of years ago under the first trees that grew on the globe, but that doesn't worry you.

The dead gorilla, killed by homesickness and tuberculosis, proved the power of the three words: "Homesickness, tuberculosis, and death." He cost twenty thousand dollars and died soon, but his life and death were worth half a million in advertising to the circus. This writing is one of a thousand free advertisements.

Similarly among human beings great men like Patrick Henry, with his famous seven words, "Democracy, with its wonderful short speech on a tin table of the Pulaski Hotel, were worth, to America and France, as advertisers of revolutionary patriotism, more than a million fighting men or many millions of dollars.

U. S. GOVERNMENT WEATHER FORECAST

Booster and violent fair tonight and tomorrow. Thursday, severe to moderate south to southwest winds. Sea, calm 4.00 to 6.00. High tide 9.00 a. m. 10.00 p. m. Low tide 4.00 a. m. 5.00 p. m. Temperature at 11, 61; minimum 55; maximum 65. Wind, variable, 11. Light air variable tonight at 7.00.

JOY RIDE OF LOUD PROBED

Dragnet Set for Companion of Accused Man on Week-End Ipswich Trip

The police dragnet was spread today for a young woman who is reported to have spent a week-end recently at Ipswich with Clarence W. Loud, of Melrose, alleged slayer of Patrolman James Arthur Brown of the Wakefield police force.

The authorities are anxious to locate the girl who is now at the latest figure in a tragedy that is said to involve many of her sex. The police are reported to have all the evidence of the alleged "joy ride," but have not quite established the identity of the girl. They have been working on the case for a week.

A Melrose nurse, whose name figured, was found today to have nothing whatever to do with the case. If the girl who is said to have been entertained by Loud in Ipswich is found she will be promptly interviewed by District Attorney Nathan A. Tuttle and be added to the list of forty or fifty witnesses to be summoned before a special session of friends at Loud's day called for April 25.

Alleged clandestine women friends of Loud are daily being hunted and interrogated. The private life of the shoe salesman and collector of knick-knacks is being probed.

The Famous Harding Smile

Here's how the President felt over his enthusiastic reception in New York yesterday. He was there to unveil the Balfour statue. It is estimated more than a half million persons saw the famous smile.

SHOT IS FIRED AT ALDERMAN

Robert C. Harris of Somerville Believes Someone Tried to Kill Him

Somerville police are investigating what appears to have been an attempt to assassinate Alderman Robert C. Harris of that city. Harris, who is a Democrat, was sitting in his shop in Somerville avenue, near Union square, when a bullet came through a rear window and passed within a few inches of his head.

Accompanied by John Sullivan, his assistant, and Martin Tobey, a South Boston doctor, who was with him, he dashed out to look for the person who fired the shot, but there was nobody in sight.

Although not knowing he has any enemies, Harris says he is compelled to believe the shot was meant for him.

COURT REFUSES RIVES ESTATE TAX RETURN

By International News Service. NEWPORT, R. I., April 20.—Judge James J. Flaherty of the Supreme Court has decided execution of the will of George W. Rives, late of this city, are not entitled to receive \$125,000, paid to the city tax assessor under protest August 30, 1919.

BECK FORECAST INQUIRY BY TELLING OF LOU TO INVEST IN "L" STOCK

John L. Donovan, former Representative, refused testimony in the Elevated investigation today when the special committee resumed its inquiry.

Asked if he was willing to testify, Donovan said, "I have nothing to say voluntarily," and left the room.

Former Senator John E. Beck of Chelsea today admitted that while a member of the Senate he borrowed about \$200,000 through Edwin T. McKnight and used the money to speculate in Elevated stock.

Beck's statement caused a sensation at the hearing before the legislative committee investigating the Elevated investigation.

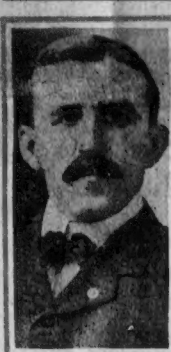

On May 15, 1914, he said, he saw that the passage of the Elevated public control bill was inevitable.

He called up the Fidelity Trust Company, talked with McKnight and requested a loan of \$100,000. Later he called up E. M. Hamilton & Co., brokers, and arranged to secure this loan with 300 shares of Boston Elevated stock.

It was included in his peace terms, written by himself in the spring of that year, and just discovered in the archives of the German Foreign Office, according to the Berlin correspondent of the Manchester Guardian.

The other peace conditions of the Kaiser were: Germany was to get the right French colonies of Germany and

100 Picture Brides Greeted in Port

New York, April 20.—One hundred picture brides arrived from Greek, French and Italian ports aboard the Fabre liner Canada, seven had been married by proxy, but none had ever seen her husband.

The husbands went down the bay in a flotilla of rowboats, and their frantic greeting and questioning in the endeavor to learn whose wife was whom gave other passengers considerable amusement.

40 Billion Indemnity for U. S., Kaiser's Plan

By International News Service. London, April 20.—An indemnity of \$40,000,000,000 was the "penalty" which the Kaiser proposed to impose upon the United States if Germany had won the war in 1917.

It was included in his peace terms, written by himself in the spring of that year, and just discovered in the archives of the German Foreign Office, according to the Berlin correspondent of the Manchester Guardian.

The other peace conditions of the Kaiser were: Germany was to get the right French colonies of Germany and

STOLE MONEY FOR 10 YEARS

Cashier Thomas J. O'Daly of the city treasurer's office confessed to City Auditor J. Alfred Mitchell today that he was \$40,000 short in his accounts, that the money was spent in stock speculation and that his speculations extended over a period of ten years.

This announcement was made by Mayor Peters, following a conference between City Auditor Mitchell and O'Daly at the latter's Dorchester home where he is confined suffering from nervous collapse.

According to the Mayor O'Daly exonerated every one else in the city treasurer's office, and explained that he had covered up his stealings by listing them as court judgments against the city. The Mayor said O'Daly would not be arrested at present, but that his house was being watched by the police.

City Treasurer Murray said the shortage was discovered through an unannounced audit started on April 7 by the firm of Stewart, Watts and Bolling of No. 40 State street. This audit was ordered by the city auditor preparatory to the departure from official life of the city treasurer, who has been given the office of vice-president of the International Trust Company, in charge of its Dorchester branch.

According to Mr. Murray, the examination revealed a deficit of at least \$40,000, and possibly more, the discrepancy being made last Friday. The city treasurer was notified the following morning, and at once called the matter to the attention of Mayor Peters.

On Monday Mayor Peters requested the Civil Service Commission to defer action on the appointment of O'Daly as city treasurer to succeed Mr. Murray. It was said that O'Daly was taken ill at that time and has since been confined to his home.

When questioned about the shortage today, City Treasurer Murray said it was not necessary to accuse anyone directly or indirectly, as it was known who was responsible. Asked who the guilty person was, Mr. Murray replied: Continued on Page 4, Column 1.

Regent Bread

16-oz. Loaf - 9c
24-oz. Loaf - 12c

At eight o'clock this morning, and every morning hereafter, until further notice, our bakery counters will be supplied with Unwaxed Regent Bread.

It's the same light, white, "hearty" flavored bread that we have always made, but falling markets in flour and other ingredients have made lower prices possible, and we pass the advantage along to the consumer.

The weight of our bread means something to you. Cobb, Bates & Yerxa Co. 87 Causeway St., Boston Summer St. 6-3 Faneuil Hall St.

Treasurer Murray Says Man Who Got Boston's Money Is Known

Continued From First Page.

"I don't want to be the first to mention his name." He said the matter was in the mayor's hands and that any action would be taken by him. At the time of the announcement that City Auditor Mitchell had been sent to the home of Cashier O'Daly, Mayor Peters' secretary said that the mayor would take no action and leave the statement until he had heard from the cashier.

BEHIND LAST YEAR. City Treasurer Murray said that O'Daly kept a personal set of books which had not been examined up to the time of the unannounced audit. He added that any shortage must have occurred since June, 1920, when the last audit was made by the same firm. At that time the accounts were said to be in a satisfactory condition. O'Daly, who has been in the city treasurer's department for thirty-five years, was bonded for \$25,000 as cashier. It was stated. He is a man well along in years, with one eye said to be a student at Brown University. Another son is said to have fallen a victim to influenza during the epidemic. The family has lived on Beacon street, Dorchester, for more than twenty years and are highly respected.

MEET CONFERENCE. It was said that Mayor O'Daly and Treasurer Murray conferred on Monday, at which time the cashier promised to make a statement today. The exhaustive probe to determine the disposition of the missing funds was started by Corporation Counsel Hill.

City Hall was a veritable beehive of activity following the announcement early today of the result of the audit. A dozen officials were implicated by the rumors, but Murray would only say that he would not be fair to the man under suspicion to say at present from what department the funds were taken.

Mayor Peters, Corporation Counsel Hill and Treasurer Murray went into conference immediately after the shortage was disclosed. It was announced that no details of the deficit would be revealed until the audit which is still under way had been completed. The Mayor was greatly perturbed over the affair and at the instance of Mr. Murray authorized the corporation counsel to start an investigation.

TOTAL IS UNKNOWN. Because of the recent rumors of financial difficulties in the Soldiers' Relief Department, Mr. Murray took occasion to deny that the shortage existed in that branch. He then gave out the following statement:

"I ordered the present audit on last Saturday unexpected. I had no suspicion that anything was wrong, simply wanted to close out my accounts with the city preparatory to leaving on April 21. I think that judgment from the results of this audit that all the future audits will be unannounced. It will be impossible to tell until the audit is complete just how much is missing, but I present the sum appears to be \$40,000."

WILL WAIT FOR FULL PAGES. Following the conference with Mayor Peters and the city treasurer, Corporation Counsel Hill also issued a statement which follows:

"As a consequence of an unannounced audit of the city's accounts ordered by City Treasurer Murray, a serious shortage was discovered in the city cash. At present the sum missing appears to be about \$40,000. It will be impossible to tell just how much the audit will disclose until the audit is finished. At the request of Mr. Murray, the Mayor has placed the matter in the hands of the corporation counsel for investigation. I am waiting for the complete statement of the audit which the audit will disclose before proceeding further in the matter."

SPRINGFIELD EDITOR.

LECTURES AT YALE. New Haven, Ct., April 19.—The selling of a newspaper reporter to a high and worthy one, Richard Baskin, editor of the Springfield Republican, told Yale students, delivered the first of the 1921 Baskin lectures at the university.

DOUBLE FUNERAL FOR PORTSMOUTH, N. H., MEN. Portsmouth, N. H., April 16.—Major and veteran of the World War attended the double funeral of J. J. Brown, Paul, York, Beach, business man, and his brother-in-law, Mark W. Anthony, held yesterday in the Unitarian Church.

BAD BREATH.

Dr. Edwards' Olive Tablets Get at the Cause and Remove It.

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, eliminating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects.

All the benefits of niter, siccating, purging cathartics are derived from Dr. Edwards' Olive Tablets without any of the bad after effects.

Dr. P. M. Edwards discovered the cause of bad breath. He found that some persons afflicted with bad breath were afflicted with the attendant bad breath. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, eliminating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics do without any of the bad after effects.

As Artist Harmony Saw North End 'Dearos'

COUNT'S SLAYER IS KNOWN

Woman or German Secret Service Motive Now Laid to Pickle Murder. By Universal Service. Atlantic City, N. J., April 19.—The owner of the salt and pepper cap found near the body of Henry Heuser, identified as Count Heinrich von Pickler, is known to the police. It was announced today.

The suspect is described as young, of athletic build, and a foreigner. Authorities say that all evidence gathered so far in the mysterious murder of the disguised German neophyte leads them to believe that the crime was planned and carried out by persons interested in getting von Pickler out of the way and by ordinary robbers, as had been supposed.

It is believed that von Pickler was murdered either because of difficulties over a woman or in connection with the suspected connection with the German secret service.

Three other suspects besides the man with the salt-and-pepper cap are being sought by the police. One of them has disappeared from Atlantic City. He is believed to have instigated the murder.

A number of letters from Countess von Blum, most of the murdered man, have been found in his effects by William Chappin, local attorney, who served in the World War, reports that individual donations are lagging, possibly through an incorrect impression on the part of the public that the movement is being conducted by a single fraternal society.

POPE REFUSED TO ACT FOR GERMANY.

Rome, April 19.—In spite of emphatic denials that the Holy See has been requested by Germany to act as her intermediary in the reparations controversy, the International News Service is reliably informed that the Berlin government did ask the Pope, however, refused because he did not wish to give offense to the allies, particularly France, by making himself the spokesman of Germany.

The Vatican semi-official newspaper, the Corriere di Italia, again denied today that any step had been taken by the Vatican toward mediation in Germany's behalf.

CELEBRATE GOLDEN WEDDING ANNIVERSARY.

Mr. and Mrs. Rachel Clinean of No. 14 Jewett street, Dorchester, celebrated their "golden wedding" anniversary quietly at their home today. Clinean was born and always has resided in Dorchester, where he is a member of the firm of R. & E. Clinean, contractors. He was married fifty years ago to Adeline Ann Hathaway of Taunton, and they have four children.

WARNS OF FIRE DANGER IN WHITE MOUNTAINS.

Gorham, N. H., April 19.—Forest Supervisor J. J. Pitts requested that the public be warned of the danger of fire in the White Mountains, as the mild winter has lengthened by three weeks the time between snow and rain, making the woods unusually dry.

THIEF IN HOME OF J. P. HINDS

Makes Noise and Flees From Quinby House When Family is Aroused. The home of James P. Hinds, state engineer, at No. 4 Avon Way, in the President's Hill section of Quincy, was entered by a burglar early today. The thief was frightened away by noise in the hall, called out, and receiving no reply, Mr. Hinds made an investigation. He found that a dining room window had been forced. The burglar made his escape through a rear door.

IRISH WHITE CROSS MEETING. A meeting of the American Auxiliary of the Irish White Cross will be held in the Quinby Square Hotel tonight at 8 o'clock.

CHILD HURT IN FALL FROM 4-STORY WINDOW. Angelina Vrelova, four years old, of No. 124 Park street, on the danger list at the East Boston Hospital with a compound fracture of the skull and nose, sustained when she fell from a fourth floor window at her home, striking on her head on the sidewalk forty feet below. Her father carried her to the hospital.

Twine on Cabbage Nearly Chokes Woman. Worcester, April 19.—Mrs. Ella Wichowski, thirty, of No. 133 Lassar street, is in a serious condition at the City Hospital, following the removal of a long piece of twine from her throat. She was eating cabbage when she choked, alarming other members of the family.

Police Surgeon Richard J. Rhannan removed the twine to the hospital, where the twine was extracted.

NEW TRIAL REFUSED FOR ADAMS FOR MURDER. Providence, April 19.—Judge J. Jerome Mahan, sitting in the Superior Court today on an appeal case of Rolf G. Adams, found guilty of murder by a jury in connection with the shooting of Miss Rose V. McKenna, several months ago, refused to grant a new trial and the defendant will be sent to State Prison to serve his term.

YOUTH SENTENCED AFTER WILD AUTO RIDE. Greenwich, Ct., April 19.—Three youths, arrested Sunday after a wild ride in an automobile alleged to have been stolen in Springfield, appeared in the Superior court. Frank S. Lindsay, eighteen years old; Benjamin Gilho, nineteen years old; and John and John and John, respectively, and Chester W. Baker, fifteen years old, had his case continued.

GARY OFFER

Leaders Plan to Organize Steel Trust and Abolish Slavery Conditions

Washington, April 19.—The challenge of Robert L. Gary, chairman of the board of directors of the United States Steel Corporation, to organized labor to accept supervision of both capital and labor by an impartial government commission is being met, according to labor leaders here. Gary's offer is being met by the right to compel union recognition and the granting of the right of collective bargaining will be carried to a finish.

TO UNIFORM TRUST. The steel trust will be unshaken, Mr. Gary may find in that event cause for great anguish, but it is coming and he may as well prepare.

This was the reply in the steel corporation chairman by Matthew Well, president of the American Federation of Labor. Mr. Well issued a formal statement of about 150 words breathing defiance and condemning in vigorous terms Judge Gary's speech and alleged conditions in the steel industry.

"No slavery has ever persisted forever, no slavery can persist forever," Mr. Well declared. "There comes a point in every case of oppression where freedom finds a way through the barriers."

ESSENTIAL TO FREEDOM. "There is no freedom for the industrialization of the steel industry," Mr. Well continued. "There is no freedom for the workers. Unless in the steel mills of America are essential for human freedom as they were in the cotton mills of England fifty years ago. Working conditions in the steel industry are not good, but the lack of freedom is just as great."

Mr. Well said that the deplorable condition of the steel industry is to be limited to the interests of the public, the employer and the worker. Mr. Well replied.

"This is beyond all bounds of tolerance. It is a repulsive distortion. To say that it is not true to brand it in its language is altogether inadequate."

"The workers will decide whether or not to limit to their interests, and as for the public, practically everything qualified" speech has placed upon trade unionism the qualified seal of approval."

O'CONNOR TO RUN FOR MAYOR OF MANCHESTER. Manchester, N. H., April 19.—Attorney Timothy P. O'Connor, former solicitor of the city, announced his candidacy for mayor on the Democratic ticket at the primary election of May 2.

Mr. O'Connor is the son of the late Denis P. O'Connor, with whom he was associated in the law business. He is a graduate of Phillips Andover Academy, and was admitted to the bar in 1916 and secured county solicitor for a two-year term in 1918.

CHILD HURT IN FALL FROM 4-STORY WINDOW. Angelina Vrelova, four years old, of No. 124 Park street, on the danger list at the East Boston Hospital with a compound fracture of the skull and nose, sustained when she fell from a fourth floor window at her home, striking on her head on the sidewalk forty feet below. Her father carried her to the hospital.

JANITOR TO BE MAN OF MIGHT

Scrubwoman, Too, Will Ascend
From Lowly Station When
Union Is Formed

By International News Service.
Washington, April 19.—Salmon the mighty janitor! All hail the lowly scrubwoman! To the accompaniment of groans performed by the "Order of Oppressed and Suppressed Janitors" let the news go forth that the mighty janitor is to become even mightier. As for the lowly scrubwoman, she tells the world no longer depths of lowliness for her, but the height of might. She has joined forces with the janitors.

Hereafter take care that your feet show proper respect when you deliver the historic old toilet dedicated to scrubwomen. "More power to her elbow!"

History will be made when the first convention of the janitors and scrubwomen of the United States meets in Washington tomorrow. The convention will draft the janitor and scrubwoman's Magna-Charta. The apartment house branch of janitors is expected to issue a new protocol against the "Order of O. and S. Janitors."

Out of the convention will rise the International Union of Janitors and Scrubwomen, which plans to become an important part of the American Federation of Labor. It will be a convention unique in labor annals. If successful Congress were not on his honeymoon he would rush back to join the labor officials said today.

"We expect great things from the International Union of Janitors and Scrubwomen," said Frank Morrison, secretary of the Federation.

The new international union will start with a membership of 15,000 strong. Its convention will make plans for a nation-wide drive to organize every janitor and scrubwoman in the United States.

BOX 52 ASSOCIATION

WILL DINE TONIGHT

The April meeting of the Box 52 Association will be held in the form of an entertainment and buffet at the Engineers' Club, corner of Commonwealth avenue and Arlington street, Boston, this evening. The program will include a lecture entitled "The Story of Rubber—How It Is Obtained and Articles Manufactured From It" by R. E. Cuddeback, President of the Rubber Manufacturers Association. President F. Hildreth Parker will preside, and will be assisted by Vice-President Theodore Grant and members of the executive committee. Vice Commissioner John R. Murphy, Chief Peter E. Walsh, of the Boston Fire Department, and members of the Massachusetts Fire Chiefs' Club have accepted invitations to be present.

CARPENTERS REJECT

PROVIDENCE WAGE CUT

Providence, April 19.—More than 1,500 union carpenters of the fourteen local unions making up the district council here have voted to reject the proposal of the Master Builders' Association to cut wages from \$1.10 to 85 cents an hour, effective May 1.

It's a Great Life, Folks, Even in Jail

OUI REBE, as they say in Paris, wishing to be sociable.

Bebe Daniels, the poor little rich movie star, however, is in a far from sociable mood, having passed the fourth day of her ten-day sentence for speeding in the Orange County Jail, California, today. Nevertheless there are extenuating circumstances in connection with Bebe's enforced stay in the hoosegow. Friends have killed her cell with flowers, candies, novels, phonograph records, etc., which help to lessen the ennui.

Jazz to Make Animals Shimmy for Savants

New York, April 20.—"Hey diddle diddle, the cat and the fiddle" is an old stuff now.

A jazz band directed by scientific research men from Columbia University, the Museum of Natural History and other institutions, were to "jangle a few 'blues' for the animals in Central Park zoo today.

The "Original Dixie Jazzband" will try to make the elephants tango. There is reported to be great curiosity on the part of the learned savants to see what happens to the leopard's spots and the tiger's stripes when they shimmy.

The idea of the scientists is to find out just what effect the corvise, violin, saxophone and other instruments will have on wild animals.

Among those invited by Norman L. Speer, organizer of the experiment, are Professor Gregory of the American Museum of Natural History; Dr. Horriday of the Bronx Zoo; Dr. Harold D. Jones, Professor Wadsworth of Columbia and others. No regrets have been received.

BIG SHIPMENT OF U. S. COAL FOR BRITAIN

London, April 19.—A big consignment of American coal is about to be landed in Britain, the Board of Trade announced today. This oil is to replenish the stocks of the public utility, almost exhausted by the miners' strike.

TROLLEY MEN VOTE ON PAY

Whether the employees of the Eastern Massachusetts Street Railway Company will accept or reject the new wage and working agreement of the public trustees will be decided by secret ballot of all the unions tomorrow night.

There was a meeting of the joint conference board in the Kimball building today to arrange for the poll. No idea of the feeling of the men toward the new terms could be gained. Trolley men would not talk. Some of the men, however, volunteered that no plan submitted to them had met with favor.

It was feared that the ballots presented to the men tomorrow night will contain other questions than those affecting the wage and working agreement.

James H. Vaher, general counsel for the union, said that what these terms were would not become public knowledge until the ballots were in the hands of the employees. Ballots were sent out to the locals today.

Just WHISTLE

Whistle in Boston.

Tourist Club to Meet

The Tourist Club will meet in the home of the secretary and treasurer, Miss Melissa Watson, on Winthrop street, Lexington, next Monday afternoon.

3,112 KILLED BY MOBS IN U. S.

Senator McCormick Introduces
Bill, Indorsed by Harding.
Against Lynchings

By International News Service.
Washington, April 19.—Bleed was a total of 3,112 persons killed by mobs in this country during the five-year period 1915-1919. In 1919, a total of 3,112 persons killed by mobs in this country during the five-year period 1915-1919. In 1919, a total of 3,112 persons killed by mobs in this country during the five-year period 1915-1919.

The appalling number of lynchings already this year and the condition of peace and order in the South, resulting from it in Jasper County, Georgia, call for immediate action by Congress, McCormick said.

He explained he had introduced his bill to meet President Harding's suggestion by a commission to study lynchings and to report to Congress last Tuesday week. "Last year sixty colored and nine white persons were lynched in this country," McCormick said.

"There have been twenty lynchings already this year. Surely it is time Congress took steps to prevent further lynchings."

"BEER" CHEVRONS ON PRINCETON STUDENTS

Princeton, N. J., April 19.—Members of the "Princeton Union of Students" donned "beer" chevrons on each sleeve, representing eighteen months of prohibition.

How are 2 Cities to Divide One Buffalo?

Bristol, Va., April 19.—How to accept in the name of the city of Bristol, a bull buffalo offered by the Department of the Interior is a question that is puzzling the Mayor of Bristol, Va., and Bristol, Tenn. Disregarding the State law which splits the city in half the offer was made to the city as a whole and both sides want the bull.

Mayor W. H. Touse of Bristol, Va., is in favor of building a pen for the animal, half in Tennessee and half in Virginia, and accepting the offer in behalf of the two cities.

Mayor C. O. King, while making an official statement is said to be agreeable to this plan. The bull can then roam in two states.

RUSSIA TRYING TO TRADE WITH MEXICO

Mexico City, April 19.—Colonel Ruzovsky, representing White Russia, arrived here today and conferred with Foreign Minister Alberto Pasa for the purpose of establishing commercial relations and an interchange of military supplies. He will be received by President Obregon tomorrow. He asserts the Japanese government already has entered into similar arrangements with White Russia.

SINN FEINER KILLED

IN CORK BY SOLDIERS
Dublin, April 19.—A man named O'Donnell, presumably a Sinn Fein volunteer, was shot and killed at Cork today by members of the Crown's forces. At Dunderrow, County Dublin, police were attacked by Sinn Fein. One policeman was killed. At Ballinacorney two constables were dragged from a train and killed.

WEEKS NOT WORRIED BY CALL TO JAP OFFICERS

Washington, April 19.—The fact that Japan has called her army officers home for military training has to be significant, according to Secretary Weeks and members of the General Staff of the Army today. This action is taken annually, they said.

SAME IN FLAVOR— LARGE OR SMALL

The right way to "size up" prunes

Prunes are graded according to size ranging from 20-30's (twenty to thirty prunes to the pound) to 100-120's. Quite a few people know that. But how few realize that the size of a prune does not necessarily affect its quality or its "eating value"!

On any one tree in any one orchard, you will find clusters of prunes of varying sizes. Nature must have had good reason for planning things that way. Nature doesn't measure prunes with a yardstick. So, why should we?

After all, it's a matter of taste and economy. Small prunes, if they are good quality, taste just as good as large prunes. Some people like to say that they taste even better. And as for economy, small prunes are a "better buy" because you get more meat for the money.

Next time you order Sunsweet Prunes from your grocer try a few pounds of the smaller-sized prunes—and see!

DATA FILLING IS READY TO TEST BATTING PRESS OF GIANTS

Manager Pleased over Manner
In Which Young Hurler Per-
formed in Initial Trial

BY NICK FLATLEY

Dana Phillips, one of the baseball's most eminent specialists, was due to start his first game of the merry campaign against the Giants at the Braves' home this afternoon. Dana's arm was recovered from a strain incurred hauling in sharks down in Texas, or something like that, and it has the ball curling properly before hand, but due to a cut to get the team an even break with McGraw's pupils.

Should the bumpy break occur warm up poorly, John Scott was to take his place, as Manager Mitchell has decided that he will not start any of the rookies until the outfit gets out on the road.

Fortune is with the Tribe this spring in the matter of choice dates. The two handouts on the water before the return May 2 will be spent at Brooklyn and the Polo grounds, respectively. Plenty of gate receipts.

Little Johnny Connor is now ready to become a real big league pitcher, according to Manager Fred Mitchell, who was more than pleased with his baby southpaw's first game. The ten-year-old youth faced a tough team and a big and appreciative crowd. Naturally he was nervous and a bit shaky, but he showed the ability that everybody hoped he had. He's going after everything, and getting all the possible runs. He's hitting hard, and using his crown at the plate.

Not that he's with a scragging team, Tony Bancher is showing the ability that everybody hoped he had. He's going after everything, and getting all the possible runs. He's hitting hard, and using his crown at the plate.

Not that he's with a scragging team, Tony Bancher is showing the ability that everybody hoped he had. He's going after everything, and getting all the possible runs. He's hitting hard, and using his crown at the plate.

Red Sox Lay Off So Boss Sends
Harvey Miller to Rochester
for Further Seasoning

New York, April 20.—Handsome Harry Preece took advantage of the wet weather to release pitcher Harvey Miller to the Rochester club of the International League. Otherwise there was nothing stirring around the camp of the Red Sox, though Manager Duffy was alleged to be trying hard to press the club payroll by releasing a few more of the "surplus" players.

Duffy, however, couldn't tie up anybody who wanted such men as the Red Soxan afford to pay themselves loose from the season and there the matter rests for the present. The pitching problem is a tough one for Duffy to solve. Jones has arrived, but he does not feel that he can be worked faster than on a walk. The fighting spirit of the team is carrying this young man up toward the ranks of the stars.

The Braves are still a bit better around since the double event in on. Everything has been done in a week, and that will soon be looked out. Then the lower defense will be quite steady.

These Giants go for the same old speed that has marked all McGraw's teams. When they land on the base they are really dangerous and they have the knack of getting their feet out of the dirt. The team can be formed with the best of the best. The team can be formed with the best of the best.

Young Preece handling himself well around third, though he plays such a deep field that a good batting team will give him plenty of trouble. Especially with slow fielding pitchers like Thomas and Toney on the mound.

The real infield star is Preece, who has had just the experience that he needs to be a regular star. He's and he is now a regular star. He's and he is now a regular star.

Empire Hill Baseball League has overlooked Mickey O'Dell's research, and made himself popular with the game. But the administrative dignity was offended, and the King was chased. But the King was chased.

WOMEN BOWLERS
READY FOR MATCH
Five young Dorchester women members of the Court Nativity League of Isabella, who have been holding all Winter in the country five team league, have caused a derby to the Dorchester Ladies' Club. Coach McCall of C. B. for a match, which will take place on the evening of May 2 at the Colman Square. After the game will be the Misses Cecilia Reilly, Grace Ward, Agnes Bennett, Grace O'Neill and Annie Casey. Mrs. M. C. Burns, grand regent of Court Nativity, will be in charge of the "trout roister" the night of the match.

DORCHESTER HIGH PLAYS
SOUTH BOSTON FRIDAY
The Dorchester High ball team will meet the South Boston High nine Friday morning at Rensselaer Memorial Park. Dorchester, and a good game is looked forward to. Coach William Fenderson of the Dorchester team feels that over his win over English High the holiday and looks to be young Lecky. A Fielder's Corner boy, made a fast pitcher as the season warms up. In Jack Haggerty, the third-sacker, he has a find, and claims he will make a "blaze" run that him in the English game. Haggerty, five times up, hit the ball over two batters and two batters, and the time he missed being caught out on a long fly to destroyed.

FRANK ZUNA AND HEROEES

Foolish Marathon Races and Fickle Public
Tex Rickard Has a Few More Words to Say
Disabled Soldiers and Boxing Purses
How the Public Rates Baseball

By JACK CONWAY

Frank Zuna, Marathon winner, is a hero today. He ran twenty-five miles in two hours, eighteen minutes, twenty-seven and three-fifths seconds which is a new record for the course from Ash-land to the B. & A. clubhouse in Boston. Tomorrow people will make but scant mention of Zuna's victory, by Friday the Marathon victor will be almost forgotten. Most people are too busy making a living and enjoying their family and friends to engage in the recreations of hero-worshiping for a period more than three days.

Zuna will then be permitted to go his own way. He may engage in further foolish Marathon races and perhaps win them. Few runners, however, win more than one or two twenty-five-mile races. The physical strain of such a contest wrecks a man's constitution, often causing tuberculosis. Today Zuna has his trophy and passing glory. Like most people who do foolish things, he is probably not thinking about the time when the public will have elevated a new idol to his place and he may not have the strength to walk, not to mention running twenty-five miles.

Tex Rickard, fight promoter, announces that the bout between Jack Dempsey and Georges Carpentier for the heavyweight championship of the world will be held at Jersey City on July 2. Any sporting writer who knows the methods of our professional promoters could have told this much weeks ago. When Governor Miller was elected in New York, Rickard was wise enough to know that he could not hold the big bout in the Empire State. The next thing to do was to stage the affair in New Jersey. Those persons who desired to take in the championship match could then secure hotel accommodations in New York, spend their money at amusement resorts which please people even though they lack real value, and at their convenience journey to the scene of the contest.

The next big news connected with the bout will be the arrival of Carpentier in this country about May 11. He will then begin training. It is hoped that the contest has a decisive result, but as it is a twelve-round, no-decision affair there is a possibility that opinion on the merits of the two men will be divided when the bout ends. Under such circumstances, of course, Dempsey and Carpentier would be compelled "by public demand" to meet again, perhaps in France or England, in a match of longer duration. Naturally each of them would expect to be paid several hundred thousand dollars.

Disabled war heroes at the Parker Hill Hospital, Roxbury, probably read with interest of the tremendous runs which will be paid to Dempsey and Carpentier. These men were told when they sailed overseas that a "grateful country" would see that those who were dear to them as well as themselves would be amply provided for when the war ended. The war is now over and the nearest disabled veterans come to getting any real money is when they read about what is going to be paid to two prize fighters.

Baseball is not dead. It is merely sick. This contention made recently by this writer was proved yesterday afternoon when close to 15,000 persons turned out for the game between the Braves and Giants despite the cold and rain. If Patriots' Day had been warm and clear, 30,000 fans would have been on hand to see Fred Mitchell's club in action.

The Braves, after years of defeats, have displayed some real baseball this year. And the public is willing to patronize a team which is always fighting to gain the slightest advantage.

Judge Landis, by administering justice in a fearless, impartial manner, and Babe Ruth, by knocking out home runs, are the two big factors in bringing baseball back to normal.

Patriots' Day opened the outdoor season in sports. Don't be a mere spectator. Become an active contestant in some branch of athletics. The trouble with most Americans is that they prefer watching somebody else do something rather than going out and accomplishing something themselves.

By TAD MCMOTT

PLEA FOR PROBE
Judge at Herman-Montreal
Bout Asks the Boxing Com-
mission to Act

Not to be outdone by Lewis R. Sullivan, who has demanded that the boxing commission investigate the Herman-Montreal bout, W. T. McMorris, the other judge of the contest, has sent the following letter to the Boxing Commission:

"I have just returned to the city. I think it is a pity that the fight that appeared in regard to the Montreal-Herman bout, which took place at the Arena last Friday evening, where I was one of the judges.

"I must ask your board to investigate these charges at once, in all fairness to me. A thorough investigation by your board will prove to the public what an injustice has been done the officials.

"Will you have my very early reply and bearing on the matter."

Both McMorris and Sullivan agreed that Montreal was the winner.

"ENGAGEMENT" ALL A
JOKE, SAYS HERRMANN
Chicago, April 20.—Is August (Harry) Herrmann, president of the Cincinnati Redlegs club, and former chairman of the National Baseball Commission, engaged to be married to Mrs. Elizabeth Dougherty, widow of a wealthy Chicago contractor, Hummer and Mrs. Dougherty herself have it so, but Mr. Herrmann says:

"According to the story current here, Mrs. Dougherty is a baseball fan. She takes in all the games, and, of course, she is a fan of the Redlegs. She should meet Mr. Herrmann. Mr. Herrmann gave a party in the Hotel Windsor in Cincinnati for a few friends, and it was then, according to Mrs. Dougherty, that the "engagement" was announced.

Without the slightest exaggeration one can say the seventy-two stroke round scored by Alvin, England was a sterling performance.

Flight judge may come; flight judge may go, but the 20 for the 20th was a sterling performance.

Once again the "non-repenter" hoodoo has way in a U. S. A. Marathon run. With four former winners among the competitors the time seemed as ripe as it ever could be for a former-winner victory, but such proved not the case. Third, fourth, sixth and fourth place respectively were landed by Trivulzio, the 1920 victor. Linder, the 1915 winner, Fabre, the first home in 1915, and Kennedy, the 1917 champion. If Trivulzio had been brought along during the early portion of the race, he might have broken the spell which for more than twenty years has worked against former winners of the U. S. A. Marathon run. With four former winners among the competitors the time seemed as ripe as it ever could be for a former-winner victory, but such proved not the case. If Trivulzio had been brought along during the early portion of the race, he might have broken the spell which for more than twenty years has worked against former winners of the U. S. A. Marathon run. With four former winners among the competitors the time seemed as ripe as it ever could be for a former-winner victory, but such proved not the case. Third, fourth, sixth and fourth place respectively were landed by Trivulzio, the 1920 victor. Linder, the 1915 winner, Fabre, the first home in 1915, and Kennedy, the 1917 champion. If Trivulzio had been brought along during the early portion of the race, he might have broken the spell which for more than twenty years has worked against former winners of the U. S. A.
